Note 2 - Significant accounting policies

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment and with generally accepted accounting principles in Luxembourg.

The financial statements of the Fund have been prepared on a going concern basis.

Suspended Sub-Funds:

The net asset values of the Sub-Funds East Capital Eastern Europe and East Capital Russia are indicative and not official NAVs. The official NAV calculation is suspended and shareholders neither subscribe into nor redeem from the Sub-Fund (see Note 11).

b) Valuation

The assets of the Fund are valued as follows:

- 1) The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as the Fund may consider appropriate in such case to reflect the true value thereof.
- 2) Securities admitted to official listing on an official stock exchange or traded on any other organised market are valued at the last available reliable price on such stock exchange or market, unless such a price is not deemed to be representative of their fair market value;
- 3) Securities not listed on stock exchanges or not traded on any regulated market and securities with an official listing for which the last available price is not representative of a fair market value are valued, prudently and in good faith, on the basis of their estimated sale prices;
- 4) The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in accordance with market practice;
- 5) For each Sub-Fund, securities whose value is expressed in a currency other than the reference currency of that Sub-Fund are converted into that reference currency by using the last available relevant mid-spot exchange rate;
- 6) The units/shares of undertakings for collective investment are valued on the basis of the last known net asset value. In case where an indicative net asset value is available and deemed reliable, such indicative net asset value may be used when deemed to better reflect the value of the undertakings for collective investment.

Although the Board of Directors decided - prior to the reporting period - to charge the Sub-Fund on a cost-recovery basis, the Board of Directors confirms that, as of the date of this report, no fees have been paid from the assets of the suspended Sub-Fund since its suspension on 1st March 2022.

^{***} Management fee applied until the merger on 31st March 2025. For the remaining share classes, the same approach as applied to the Sub-Fund Russia is followed. Please see below for details on the portfolio maintenance costs.

The flat fee mainly covers the ongoing depositary fees and safekeeping charges payable to the Depositary (including any sub-depositary fees), fees for fund administration services payable to the Administration Agent and transfer agency fees for registrar and transfer agency services payable to the Registrar and Transfer Agent.

Note 6 - Performance fee

The Management Company or the Investment Manager, is entitled to receive a performance fee in respect of Class P Shares calculated at a Performance Fee Rate of 20%, except for the Sub-Fund East Capital Global Emerging Markets Sustainable at a Performance Fee Rate of 15%.

The Performance Fee Benchmarks for the Sub-Funds are:

- the MSCI China All Shares Index for the Sub-Fund East Capital China;
- the MSCI Emerging Markets Index for the Sub-Fund East Capital Global Emerging Markets Sustainable;
- the MSCI Frontier Markets Index for the Sub-Fund East Capital Global Frontier Markets;

^{*} share class not launched as at 30th June 2025

^{**} The payment of fees to any party from the assets of the Sub-Fund Russia has remained suspended since the commencement of the suspension period on 1st March 2022. During the reporting period, the Board of Directors resolved that the payment of accrued fees may recommence, provided that any such payment does not impose undue costs upon the Sub-Fund, taking due consideration of its specific circumstances. Notwithstanding the aforementioned resolution, no such payments were effected during the reporting period.

^{***} Flat fee applied until the merger on 31st March 2025. For the remaining share classes, the same approach as applied to the Sub-Fund Russia is followed. Please see below for details on the third-party charges.

Note 7 - Subscription duty ("Taxe d'abonnement")

The Fund is governed by Luxembourg law.

Pursuant to the legislation and regulations in force, the Fund is subject to an annual subscription duty ("taxe d'abonnement") of 0.05% which is payable quarterly and calculated on the basis of the net assets of each Sub-Fund on the last day of each quarter.

The rate of this tax is reduced to 0.01% of the value of the net assets for Sub-Funds or Classes of shares reserved for institutional investors.

According to Article 175 (a) of the amended Law of 17th December 2010, the net assets invested in Undertakings for Collective Investments already subject to the "taxe d'abonnement" are exempt from this tax.

Note 8 - Securities lending

The Fund can carry out securities lending transactions.

The table below shows for the different Sub-Funds at the date of the financial statements:

- the global valuation of the securities lent ("Securities Lending")
- the valuation of the cash received as collateral.

Sub-Fund	Currency	Global valuation of the securities lent to the following counterparties				Valuation of the cash collateral *
		Citigroup Global Markets Limited	HSBC Bank Plc	Morgan Stanley & Co. International plc	Total	Total
East Capital Russia	EUR	0.00	0.00	0.00	0.00	1,886,756.80

^{*} The cash collateral is an off-balance sheet item.

Note 9 - Swing Pricing

A Sub-Fund may suffer a reduction in value as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments caused by subscriptions, redemptions and/or switches in and out of the Sub-Fund. This is known as "dilution". In order to counter this and to protect Shareholders' interests, all the Sub-Funds of the Fund may apply "swing pricing" as part of its daily valuation policy. This will mean that in certain circumstances the Fund may make adjustments in the calculations of the net asset values per Share, to counter the impact of dealing and other costs on occasions when these are deemed to be significant.

If on any valuation day the aggregate transactions in Shares of a Sub-Fund result in a net increase or decrease of Shares which exceeds a threshold set by the Board of Directors from time to time for that Sub-Fund (relating to the cost of market dealing for that Sub-Fund), the net asset value of the Sub-Fund will be adjusted by an amount (not exceeding 1% of that net asset value) which reflects both the estimated fiscal charges and dealing costs that may be incurred by the Sub-Fund and the estimated bid/offer spread of the assets in which the Sub-Fund invests. The adjustment will be an addition when the net movement results in an increase of all Shares of the Fund and a deduction when it results in a decrease.

The Sub-Funds apply partial swing pricing meaning that the Net Asset Value is swung only when the predetermined net capital activity threshold is exceeded. It is implemented systematically by the Administration Agent. The swing threshold is set by the Committee at a level to ensure that investor flows that represent a significant amount of dilution in the Sub-Fund are captured.

If net-inflows into a Sub-Fund exceed this threshold level, the Net Asset Value per share will be swung upwards by a predetermined amount (the swing factor). The price swing means that subscribing investors contribute to the cost of their transactions by paying more to enter a Sub-Fund. If the net-outflows from a Sub-Fund exceed the swing threshold, the Net Asset Value per Share will be swung downwards by the swing factor and exiting Shareholders will take a reduced amount out of the Sub-Fund.

As at 30th June 2025, no swing pricing was applied.

Note 10 - Changes in investments

The statement of changes in investments for the period in reference to the report is available free of charge upon request at the registered office of the Fund.

Note 11 - Evolution of the impact of the Russian conflict in Ukraine on the Fund

Conflict in Ukraine

On 24th February 2022, the Russian Federation initiated an invasion of Ukraine. Following on from this event the Board of Directors of the Fund ratified a circular resolution, dated 1st March 2022, approving the suspension of the determination of the net asset value for East Capital Russia and East Capital Eastern Europe as Sub-Funds of the Fund.

The Global Emerging Markets Sustainable Sub-Fund contained Russian and Russian equity related securities at the time of the closure of the Russian Stock Exchange representing 2.58% of the portfolio. Due to the low exposure the Board of Directors decided not to suspend the determination of the net asset value and apply fair value pricing (see Note 2 - Valuation of Russian and Russian related equity securities) for the relevant securities and see Note 2 - Blocked accounts.

As at 30th June 2025, the Sub-Fund Russia remains suspended. As of 31st March 2025, the liquid assets of the Sub-Fund Eastern Europe were merged into the Sub-Fund New Europe. The illiquid portion of the Sub-Fund Eastern Europe remains suspended.

East Capital Eastern Europe re-organisation

The Eastern Europe Sub-Fund was subject to an accounting segregation of its Russian assets, which were allocated to new mirror share classes (one per existing share class), effective as of 27th September 2023. The mirrored share classes have the same denomination as the corresponding existing share class and are designated by a reference to the addition of the letter "Q".

The existing share classes re-opened for subscriptions and redemptions on 28th September 2023 while the mirrored share classes of the Sub-Fund remain closed for any such transactions. In accordance with the provisions of the prospectus, existing share classes are charged management and administration rates as well as other costs related to the Sub-Fund as a whole, accrued since 1st March 2022.

As the Russian securities are isolated in separated share classes, this enables shareholders at the time of the accounting segregation to retain an interest in the Russian Assets should their value return in the future.

The Indicative NAV is still calculated for the Q share classes until further notice.

As at 30th June 2025 the NAV's were as the following:

		Total NAV	Securities portfolio	Cash at bank

Such activities include, but are not limited to, contact with local authorities and key market participants, representation by the Sub-Fund at portfolio companies' shareholder meetings, safeguarding shareholder interests and communication with portfolio companies.

The cash allocated to the Q share classes is not restricted and will be used for the portfolio maintenance and third-party expenses. The invoices received in 2024 were paid in 2025.
