Note 2 - Significant accounting and valuation policies

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment and with generally accepted accounting principles in Luxembourg.

The financial statements of the Fund and each of its Sub-Funds have been prepared on a going concern basis.

Suspended Sub-Funds:

The net asset values of the Sub-Funds East Capital Eastern Europe and East Capital Russia are indicative and not official NAVs. The official NAV calculation is suspended and shareholders neither subscribe into nor redeem from the Sub-Fund (see Note 11).

b) Valuation

The assets of the Fund are valued as follows:

- 1) The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as the Fund may consider appropriate in such case to reflect the true value thereof.
- 2) Securities admitted to official listing on an official stock exchange or traded on any other organised market are valued at the last available reliable price on such stock exchange or market, unless such a price is not deemed to be representative of their fair market value;
- 3) Securities not listed on stock exchanges or not traded on any regulated market and securities with an official listing for which the last available price is not representative of a fair market value are valued, prudently and in good faith, on the basis of their estimated sale prices;
- 4) The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in accordance with market practice;
- 5) For each Sub-Fund, securities whose value is expressed in a currency other than the reference currency of that Sub-Fund are converted into that reference currency by using the last available relevant mid-spot exchange rate;
- 6) The units/shares of undertakings for collective investment are valued on the basis of the last known net asset value. In case where an indicative net asset value is available and deemed reliable, such indicative net asset value may be used when deemed to better reflect the value of the undertakings for collective investment.

Notes to the financial statements (continued)

as at 30th June 2026

Valuation of Russian and Russian related equity securities

The valuation instructions for Russian and Russian related equity securities at the date of the annual financial statements are outlined below and have been applied to all the Sub-Funds containing Russian and Russian related equity securities:

Classification - Statement of investments and other net assets (in EUR)	Condition	Instruction
Shares - Russian and Russian related (inaccessible)* - assets listed as sanctioned	Securities listed on exchanges domiciled in the Russian Federation	100% valuation haircut applied
Shares - Russian and Russian related (inaccessible)* - unsanctioned NSD-deposited assets	Securities listed on exchanges domiciled in the Russian Federation	100% valuation haircut applied

Blocked accounts

The valuation of deposits maintained within the Russian Federation, as well as other deposits subject to sanctions and countersanctions, has been duly assessed. These deposits are currently maintained in blocked accounts, rendering their balances inaccessible for withdrawal, investment, or other operational purposes. Amounts to which haircuts are applied:

Sub-Fund	30th June 2026
East Capital Eastern Europe	RUB 1,838,907,059.63
East Capital Global Emerging Markets Sustainable	RUB 6,228,925.54
East Capital Russia	RUB 7,355,212,831.26

The increase during the period in the RUB amount of the Sub-Funds East Capital Russia and East Capital Eastern Europe pertain mainly to dividend income. Several dividends were received in February, March, May and June.

c) Net realised gain/(loss) on sales of securities

The net realised gain/(loss) on sales of securities is determined on the basis of the average cost of securities sold.

d) Cost of securities

The acquisition cost of a security denominated in a currency other than that of the Sub-Fund is converted to the Sub-Fund's currency at the exchange rate prevailing on the date of purchase.

e) Exchange translation

Bank balances, other assets and liabilities and the value of securities held that are denominated in other currencies than the Sub-Fund's currency are converted at the prevailing exchange rate of the closing day. Income and expenses incurred in currencies other than the Sub-Fund's currency are converted at the prevailing exchange rate of the day of each transaction.

** The payment of fees to any party from the assets of the Sub-Funds East Capital Eastern Europe and East Capital Russia has remained suspended since the commencement of the suspension period. During the reporting period, the Board of Directors resolved that the payment of accrued fees may recommence, provided that any such payment does not impose undue costs upon the Sub-Fund, taking due consideration of its specific circumstances. The hedged Share Classes (H1/H2) as well as the Share Classes with additional denominations from "1" to "100" generally bear the same operating, administrative and servicing expenses as the corresponding underlying Share Class of the relevant Sub-Fund unless otherwise determined by the Fund and/or the Management Company.

Note 7 - Subscription duty ("Taxe d'abonnement")

The Fund is governed by Luxembourg law.

Pursuant to the legislation and regulations in force, the Fund is subject to an annual subscription duty ("taxe d'abonnement") of 0.05% which is payable quarterly and calculated on the basis of the net assets of each Sub-Fund on the last day of each quarter.

The rate of this tax is reduced to 0.01% of the value of the net assets for Sub-Funds or Classes of shares reserved for institutional investors.

According to Article 175 (a) of the amended Law of 17th December 2010, the net assets invested in Undertakings for Collective Investments already subject to the "taxe d'abonnement" are exempt from this tax.

Note 8 - Securities lending

The Fund can carry out securities lending transactions.

The table below shows for the different Sub-Funds at the date of the financial statements:

- the global valuation of the securities lent ("Securities Lending")
- the valuation of the cash received as collateral.

* The cash collateral is an off-balance sheet item.

** Related to securities which have been lent before the suspension (refer to Note 2 - Valuation of Russian and Russia-related equity securities)

Note 9 - Swing Pricing

A Sub-Fund may suffer a reduction in value as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments caused by subscriptions, redemptions and/or switches in and out of the Sub-Fund. This is known as "dilution". In order to counter this and to protect Shareholders' interests, the Management Company may apply "swing pricing" as part of all the Sub-Funds of the Fund's daily valuation policy. This will mean that in certain circumstances the Management Company may make adjustments in the calculations of the net asset values per Share of the Sub-Funds, to counter the impact of dealing and other costs on occasions when these are deemed to be significant.

If on any valuation day the aggregate transactions in Shares of a Sub-Fund result in a net increase or decrease of Shares which exceeds a threshold set by the Swing Pricing Governance Committee (the "Committee") from time to time for that Sub-Fund (relating to the cost of market dealing for that Sub-Fund), the net asset value of the Sub-Fund will be adjusted by an amount (not exceeding 1% of that net asset value) which reflects both the estimated fiscal charges and dealing costs that may be incurred by the Sub-Fund and the estimated bid/offer spread of the assets in which the Sub-Fund invests. The adjustment will be an addition when the net movement results in an increase of all Shares of the Sub-Fund and a deduction when it results in a decrease.

The Sub-Funds apply partial swing pricing meaning that the Net Asset Value is swung only when the predetermined net capital activity threshold is exceeded. It is implemented systematically by the Administration Agent. The swing threshold is set by the Committee at a level to ensure that investor flows that represent a significant amount of dilution in the Sub-Fund are captured.

If net-inflows into a Sub-Fund exceed this threshold level, the Net Asset Value per share will be swung upwards by a predetermined amount (the swing factor). The price swing means that subscribing investors contribute to the cost of their transactions by paying more to enter a Sub-Fund. If the net-outflows from a Sub-Fund exceed the swing threshold, the Net Asset Value per Share will be swung downwards by the swing factor and exiting Shareholders will take a reduced amount out of the Sub-Fund.

As at 30th June 2026, swing pricing was applied by the Sub-Fund East Capital China.
